PROFESSIONAL SUMMARY

Java Full Stack Developer skilled in Core Java, Spring Boot, REST APIs, and SQL. Experienced in building responsive UI and scalable backend systems with optimized database integration. Strong foundation in Data Structures & Algorithms (300+ problems solved). Passionate about developing high-performance, product-grade applications.

TECHNICAL SKILLS

- Languages: Java, Python, JavaScript, SQL
- Frontend: HTML5, CSS3, Thymeleaf, Bootstrap
- Backend: Spring Boot, Spring MVC, Spring Data JPA, Hibernate, REST APIs
- Database: MySQL, Schema Design, Query Optimization
- Tools & Security: Spring Security (Basics), Git, GitHub, Maven, Postman
- AI: Learning ML fundamentals and basic model building

EXPERIENCE

- Full Stack Java Developer – Infosys Springboard (2025–Present)
- Developed secure full-stack applications using Spring Boot and modern UI.
- Designed RESTful APIs and optimized backend logic for scalability.
- Integrated MySQL with efficient schema design and query optimization.

PROJECTS

- Employee Leave Management System – Role-based access, Spring Security, REST APIs, MySQL.
- Student Management System – CRUD operations using Spring Data JPA & Hibernate.
- Quiz Application – API-driven quiz management with scoring logic.

EDUCATION

- B.Tech, Computer Science & Engineering – Vardhaman College of Engineering (2024–2028) | CGPA: 9.45/10
- Intermediate – Resonance Junior College (2022–2024) | 96.1%
- ICSE – Sri Sai Public School (2021–2022) | 93%
